Requirements for the importation of fertilizers into Guyana

Listed below are the procedures that must be followed when importing commercial quantities of fertilizer for resale/distribution.

1. Registration of the applicant (renewable annually)

All importers of fertilizers must be registered with the National Plant Protection Organisation. Applicants are required to complete the following forms:

- a. Commercial Importer Registration Form
- b. Application for imported fertilizer product registration
- c. Application for a license to operate as fertilizer handlers
- d. Application for fertilizer warehouse registration certificate

Additionally, applicant is required to provide a form of identification (passport or national ID), Taxpayer Identification Number (TIN) certificate and business registration.

2. Application for Import license

Applications forms for import license are downloaded from the Ministry of Tourism, Industry & Commerce website (www.business.gov.gy) or purchased at the Guyana Stores Ltd; these forms are to be filled in triplicate. The filled applications must be brought to the National Plant Protection Organisation for **endorsement**.

For endorsement, the applicants are to provide copies of:

- a. Certificate of Origin
- b. Certificate of Quality and Quantity
- c. Certificate of Analysis
- d. Label
- e. Invoice
- f. Proof of Payment at the Pesticide & Toxic Chemical Control Board (PTCCB) for **Granular Fertilizer**.

NB: Once the above listed conditions are met, a no objection stamp is issued by the NPPO.
